JavaScript

PHP

MySQL

Laravel

Passionate about creating innovative and user-friendly web applications, responsive and visually appealing user interfaces.. With a solid foundation in both front-end and back-end development. Proficient in Html, CSS, Bootstrap, JavaScript, React, PHP, Laravel and MySQL. I am eager to contribute my skills to a dynamic and collaborative team. Seeking a challenging role in web developer where I can showcase my technical expertise and teamwork abilities. Let's build the future website together!

Education

● Bachelor Degree From Department of Computer Science.

From September 2018 to September 2022 **Unity University** Adama, OR, Ethiopia

Work experience

● Frontend Developer

May 2023 **Freelance** Adiss Abeba

Develop a portfolio website that shows all information about the client with the beautiful ui (user interface) also with responsive design.

I was responsible for developing the website with my own design.

Portfolio link: www.chapimenge.com

● Full-Stack Developer

From February 2023 to April 2023 **Freelance** Adama

I develop a full-stack website for client. I develop an e-commerce website for supermarket company from the start of the homepage to the admin panel. I develop both the frontend and backend including all the aspect of the current manual supermarket system into online based.

I was responsible to develop the whole application or the project. I develop a variety of things which gives me a good understanding of many problem solving concepts.

● Frontend Developer

Since July 2023 **Freelance** Addis Abeba

Develop frontend for gaming platform with all aspect of the clients need. I develop all the frontend form the home to admin panel with awesome ui (user interface) including responsive design.

Create new ui for it and it looks great.

● Full-Stack Developer

From August 2022 to October 2023 **Freelance** Adama

I develop a full-stack website for client. I develop an e-commerce website for an online shopping client. I build the whole site from the start of the homepage to the admin panel. I develop both the frontend and backend including all the aspect of the current online based shopping site.
